SUMMARY

Full Stack Web Developer able to build a sophisticated website with full database backend all the way from mockup to rollout. Adept at working with diverse teams to implement projects. Dogged in problem-solving.

TECHNICAL SKILLS

Experience working with HTML, CSS, JavaScript, jQuery, Bootstrap, Handlebars, Firebase, Heroku, Git, MySQL, and MERN Stack (MongoDB, Express.js, React.js, Node.js).

PROJECTS

Foodchain

https://github.com/JeremyHancock/foodchain

https://foodchains.herokuapp.com/

Full-stack developer

a farm-to-table app to track how food travels from growers to consumers
- Qr Codes contain information of all the links in the chain from the farm to the end consumer
- Codes can be scanned by any qr reading device and will direct to a simple summary of the Foodchain
- Consumer and vendor UI
- Written using React, Node, Express, and MySql

JAMR

https://github.com/JeremyHancock/GroupProject1-JAMR

https://jeremyhancock.github.io/GroupProject1-JAMR/

Back-end focus

A collaborative audio/visual experience
- Users can "play the website" with each other through keydown events
- Used Firebase and Tone.js to create polyphonic tones that are fired by changes to the database

Moodster

https://github.com/JeremyHancock/moodster

https://moodster.herokuapp.com/

Back-end focus

A mobile app for mood tracking and visualization
- Users sign up for a unique account, and the app renders visuals of their mood, sleep and diet data using Google Charts
- Using the Twilio Programmable SMS API and node-cron task scheduler package, Moodster can send text alerts to users reminding them to log their mood data

Bamazon
https://github.com/JeremyHancock/bamazon/
Sole developer
A command line interface with vendor and consumer portals to inventory sale and management

LOTR Hangman
https://github.com/JeremyHancock/hangman-game
https://jeremyhancock.github.io/hangman-game/
Sole developer
A simple game of hangman set in Middle Earth

EXPERIENCE

Area Manager *– Hershey's Ice Cream* **–** Richmond, VA   **Feb 2009 - Dec 2018**
Used sales strategies and long-term relationship development to regularly generate 150%-200% of my assigned sales objectives. Managed expectations, personalities, and resources in accomplishing objectives given. Successfully solved problems and overcame objections on a daily basis. Work activities were nearly entirely self-directed requiring a clear understanding of what activities produced the desired results.

Key Accomplishments:
- 1st Place, President's Club, 2018
    For highest total sales in my assigned region for the calendar year, totaling 180% of objective
- Above & Beyond Award, 2017
    For doing multiple jobs in an extended period where positions below me were empty

---

EDUCATION

University of Richmond, Richmond, VA – Full Stack Web Development Bootcamp
Utah State University, Logan, UT - School of music, Choral education
